DEPARTMENT OF CIVIL ENGINEERING

- A Seminar on “Advanced Civil Engineering Structures” was conducted for the II Year – III Semester Civil Engineering students on 20/08/2026.

The seminar was organized to enhance students’ knowledge and understanding of advanced concepts, innovative techniques, and modern developments in civil engineering structures. The session provided students with an opportunity to explore contemporary structural systems and their applications in the construction industry.

The seminar also helped students improve their **technical knowledge, presentation skills, communication skills, and confidence**, while encouraging them to take an active interest in recent advancements in the field of Civil Engineering
