

DEPARTMENT OF CIVIL ENGINEERING

Month: August-2025

- The II Year-III Semester Civil Engineering students conducted a Mock Parliament Session on 26/08/2025 as part of their academic and co-curricular activities. The programme was organized with the objective of providing students with practical exposure to the functioning of parliamentary democracy and developing their communication, leadership, decision-making, and teamwork skills.

The Mock Parliament provided an interactive platform for students to understand the structure, procedures, roles, and responsibilities of a parliamentary system. Students actively participated by taking up different roles such as the Speaker, Members of Parliament, ministers, opposition members, and other parliamentary representatives. They followed parliamentary procedures and presented their views on various issues in a structured and disciplined manner.
