

I B.Tech Girl Students Attend Awareness Program on Girls' Protection

As per the instructions of the Principal, Bandi Ramesh Babu, the first-year B.Tech girl students attended an **Awareness Program on Girls' Protection** at the SP Office on **16th May 2026**. The program was organized with the objective of educating students about personal safety, women's rights, cyber security, self-protection measures, and the support systems available for women in society. The session provided valuable guidance on how young women can confidently address challenges and ensure their safety in various situations.

The program was closely monitored and coordinated by the women faculty members of the Department of Humanities and Sciences, who accompanied the students throughout the event. The awareness session helped students gain a better understanding of legal protections, safety precautions, and the importance of reporting issues without fear. The initiative proved to be highly informative and empowering, encouraging students to become more aware, confident, and responsible individuals in society.
